## Skills

- HTML
- CSS
- Tailwind framework
- JavaScript
- Basic ExpressJs
- Basic ReactJs
- Basic VueJs
- Basic NuxtJs

Aspiring Junior Full-Stack Web Developer with a strong foundation in front-end and back-end technologies. Proficient in HTML, CSS, JavaScript, and front-end frameworks like VueJS and NuxtJs. Familiar with server-side languages like Express.JS, as well as databases like MySQL. Eager to learn, collaborate, and contribute to dynamic web applications. Committed to staying up-to-date with the latest industry trends and best practices.

## Work History

**2024-02 - 2024-08**

### Internship at CoE Smart City Telkom University

*Telkom University, Bandung, Indonesia*

- As a Data Scientist, I am responsible for creating machine learning models using the Python programming language, with the goal of identifying various types of waste, such as plastic bottles, glass bottles, masks, and beverage cans;
- Responsible for collecting the dataset needed for training the machine learning model. This dataset consists of a total of 2.200 images encompassing various types of waste to be identified by the model;
- Selecting the machine learning algorithms to be used in building the model;
- Software used: Google Colab, Python, TensorFlow.

## Education

**Expected in 2024-10**

### Associate of Applied Science: Information System

*Telkom University - Bandung, Indonesia*
